

## Neighboring Counties Host Spring Household Hazardous Waste Collections

*Now is the time to dispose of leftover hazardous waste material.*

Although Rutherford County will not receive a Household Hazardous Waste Collection (HHW) from the Tennessee Department of Environment and Conservation (TDEC) until **November 1, 2014**, during the spring of 2014 neighboring counties will host collections. Citizens are encouraged to take advantage of these events to properly dispose of unwanted hazardous materials. Many of the items targeted for collection are flammable, corrosive, reactive, or toxic and should not be thrown in the garbage.
